

Being a person who works from 7pm to 7am, it is nice to be able to sleep during the daytime without being hassled by a lot of phone calls. There are a bunch of my coworkers that feel the same way I do. These people that call do not respond or respect those of us that work during the night. I'm sure the patients I care for would prefer that I care for them, and their newborns without coming to work tired due to the phone ringing all day long. Thank you for the opportunity to voice my concerns with the Indiana telephone privacy issue.
